Now There SA program for catallic adolescents based on SA £ o Paul II-A the revolutionary theology of the body that helps to understand the meaning of their sexuality, its purpose, and how it complements your call to Greatsness. The unforgettable experience for teenagers, and became more and more difficult for parents and educators to help teens discover the truth about their body, their sexuality and their unique call for love. In one is self-sealed and egocentrism, you cut the noise to present an authentic vision of the human person. It presents young people with the extraordinary history of their creation as irrepective individuals. But the program does not stop there. You: Life, Love, and the theology of the body is an unique program that reveals to adolescents your value as a person: your bodies, your sexuality and your individual call for love. Filmed in locations throughout the The program presents adolescents issues are already exposed to the meaning of entertainment, social pressures, and their own interaction with others. The world has The modern presentation of person has challenges that did not exist in the past. Today, adolescents receive conflicting messages on a daily basis, and a simply based approach to rules to be followed is not enough. They need to know that it is not only a teenager a single gift, God's irrecipientile, but also is his sexuality, and all aspects of their lives. If you have already had the pleasure of teaching adolescents about John Paul II-a the theology of the body, then you will certainly agree that it is changing the face of catallic sexual education today. As more resources become available for teachers and how the theology of the body continues to grow in popularity throughout the church, there is no time to consider how to incorporate great teachings JPIIÃ ¢ s into the castity education and other courses, especially morality and sacraments. For those of you who are new to the theology of the body, it is a collection of reflections shaped Pope John Paul II-A Public Wednesday 1979-1984. These cateches were focused on the meaning of the human body, especially with regard to our sexuality. JPII suggested that a large part of his reflections A ¢ seem to be an extensive commentary on the doctrine contained precisely in the human and vitae (man and woman raised them, 133: 2). Humanae Vitae is the controversial encrydry written by Paul VI in 1968, which is known for prohibiting contraception and instead defending natural family planning. However, JPII also noted that body theology of the body can impact one's understandings, all sacraments, ecclesiology, eschatology, morality and in a special life chaste path. Main message: God is a MISTER. Who is God? Where are we going? These are the two essential questions that need to be addressed from the beginning with the students. A good understanding of God as a communion of people is the starting point for an adequate understanding of body theology and therefore the need for chastity.ã, increase your self-esteem. One of the leading teenagers reasons get involved in sex before marriage is to satisfy a self-esteem problems. IÃ ¢ I heard a popular way of explaining this as girls use sex for love sensation and guys use love to have sexual relationships. In both cases, adolescents are trying to satisfy a selfesteem issue. Make sure the teenagers recognize that they are loved and appreciated by whom they are. There is not the sexual education programs today try teenagers to motivate to abstain by fear of sexually transmissible diseases and unwanted pregnancy. This can be motivating in the short term, but in the long run this does not motivate. This is the methodology does not teach the chastity, this scares students in abstinence or in using contraception. Concentrate on the positive purity (lear) vs. maniceation of sexuality, should be the focus of the chastity education. In other words, sex is not a bad thing. Sex is a good thing in the context of, civil love. ¢ Use self-donation humor. It is uncomfortable to talk about sex. Use the appropriate mood to break the ice in some questions. Try to take them out of your comfort zone to open for the Pray Message. Each lesson should be in the context of prayer. Do not forget to pray. One is there for children. Tob often brings the personal conflicts and difficulties with the family. Be a good listener, but make sure you refer them to the individuals with adequate formation for in many cases. Ã, validate your opinions. Students are likely to have strong feelings about the Raised by the Tob: Same-sex marriage, contraception, clerical celibacy, women orders, divorce and sex before marriage. Do not become an enemy. Listen and affirm by someone-¢ s would make sense from a certain perspective. For example, support support The same-sex marriage has the intention of validating dignity and is worth all human people, but this vision misunderstood the meaning and purpose of marriage. Be sure to dive deep into the approach of these issues taken by TB. Once you really examine the problems of the TB perspective, students may recognize the reason for church teachings, even if they continue to disagree. The results that students think? administered an anonymous and informal research at the end of each session of a course of a 4 weeks that I taught about the theology of the body to students considered that 57% of the students considered the messages contained in the theology of the body to be better than the sexual education they received previously.
