Borderlands 3 agonizer 9000 guide

Gallery. Gallery with the "Tenderizer!" (Using Tenderizer) "Aren't ya a little tall for a Vault Thief? The second health bar is unique in that it is purple, and is weak to every source of damage. Sawblade Launcher: A rotating saw launcher located in front of the navel valve will follow the Vault Hunter and occasionally launch a sawblade. This can easily be avoided by waiting for the blade to launch and stepping out of the way. Additionally, it causes the Mega Blaster attack to become unavoidable during its downward facing configuration. However, this makes the fight substantially more difficult as the head can now block some of the critical hit spots located on its body. The critical hit points for The Agonizer 9000 are its glowing eyes, back-mounted gas tank, pressure valve at its "navel", and various electrical boxes scattered around its body. They can be killed by any source of damage, which causes loot to burst across the arena. Additionally, walls of various sizes will begin to spawn around the arena, which can both provide cover from the new adds and impede movement. Quotes All quotes are said by Pain. Once the break ends, The Agonizer 9000 will pop back up and Pain will announce that "they are all in", which causes all of The Agonizer's attacks to become faster or cover a wider area. However, because it is not considered a critical hit spot, it cannot be destroyed. Once its health has been reduced by 1/3, Pain will announce the "audience participation segment", which will cause Fanatics, Tinks, and Psychos to begin spawning from various doors around the arena throughout the rest of the fight. Hey, pal I'll take your money, but that's just unprofessional." (Taking a "commercial break") "Okay, break's over. View source The Agonizer 9000 is a giant murderbot operated by Pain and Terror. The attack can switch direction and height in later phases. The Agonizer 9000 serves as the boss of the story mission, Blood Drive, it then begins to slowly turn around the sand twice. The "skin" of the agnizer 9000 is immune to the day, but it can be broken with attacks, after which that part of the face can be given normally. "I don't care, just do it!" (Activating the Eridium laser) "Laser! (Activating the Eridium laser)" Enjoy the spotlight! n, asshole! "Activating the Eridium laser" Eat Eridium, ^ bark's ^ n! "Activating the Eridium laser" Single Agonizer 1500 rocket launcher. In addition, the only Agonizer 9000 attack during this phase is a continuous core energy beam. It should be noted that, although the body of the agnizer 9000 can still receive days in this phase, it gains resistance to the days to the point that it is effectively immune. During the rest, several containers of ^ will rise around the sand, allowing the hunter of the ^ to recover the municipality^ ^ and / or health. Strategy Unlike the biggest boss in history, the agnizer 9000 has two health bars, which correspond to the two phases of the fight. While in its hole, the agnizing 9000 can't be given out by middle. Sujerizer: The agnizer 9000 removes its shoulder protector with spikes and climb above the hunter of the ^ veda for a few seconds before hitting it down. (Home "Audience ^) "Come and join the fight!" No resignations needed!" (Home "Audience ^) "See you!" (Mocking) "Hey. During this phase, the crAtico strike point changes to the bright core, which can be destroyed in just a few blows. Please note that do not use the same attack twice in a row: Chop Knife: The Agonizer 9000 remove the knife from his head and lower himself in the sand several times, usually near the hunter of the ^ veda. The first health bar consists entirely of armor. Corrosive damage is the most effective way to deal with damage. Let's fix that". Right there! Obta^n "Em" (Using the softener) "We're going to need a mop for you". (Using the softener) "Smashy Smashy" (Using the softener) "PULP EM, TERROR". (Using the softener) "Look down! " (Using the softener) "Let's turn up the heat!" (Activating the flame jets) "The thief of the vault is on fire! Or at least, they're about to be". (Activation of flame) "Who's hungry for some barbecue?" (Activation of flame jets) "Go out and show the robber the way how sharp the teeth are!" (Home" Audience participation ^) "I want to see those teeth!" (Starting "Audience participation ^) "Make some noise, you dirty animals!" (Home" Audience participation ^) "Now for the audience participation segment. We're all on! Press every button!" (Returning from Break) "This isn't over! Terror! Hit them directly with the Core Eridium!" Oh, what's that? The location of impact is clearly denoted by the bright red dot on the ground and can be dodged by running out of place once it stops moving. "Unstable"? Having its health reduced by 2/3, the agnizer 9000 will take a quick "commercial break" and retreated into its hole. This attack has a slight area of effect. During the first phase of the fight, the agnizer 9000 will employ several different attacks. In addition, the agnizer 9000 has two "passive" attacks that will be used in conjunction with the movements mentioned above: Flame jets: Several sections of the sand will glow red for a few seconds before the flame jets are fired from the floor. Humor, the agnizer 9000 is affected by the "Galaxy Brain" modifier introduced during MAYHEM Mode 2.0, which results in his head that it is becoming. Occasionally, the Agonizer 9000 Button Drops may be ejected from the sand and into the audience, making it inaccessible. However, these walls may be .Anera, Aht, Suidar, Aht, Sarvoc, Htuom, Sitimort, Saniahi, a Yolped llw 0090, RezinoG, A, A, B, ageM, erovageM, ekil silks, tuohitiw, egamitrc, fo secruos leitnetop, evomer, ylkciuq, slevleL, M rehguin, Eirezinog, Teinhum, Tem, Nim, Nim, Nim, Nim, Nim, Nim wElacs ton suid under htehlo fo tmuna dext a evah 0009 rezinoG aht no stops th lacticre ehT sdoG niw! eht fo eman eht ni, retmuH tluat ro VOC yeh eb, enyomg ecifcras deppiugc dndengcam tluh-espoupa si ti ltylucit to seelddrager delltnatsni llw rednagemTH VOC,dmnd ralupop yB" (poHC etfink gnisU) "ti teg, ah Ah!uyoy teem of "etfink" lyeh" (poHC etfink gnisU) "revealC" (poHC etfink gnisU) "yecid "nikool era sgmh!" Please note that after a few seconds, the ammunition containers will self-destruct and give^ the bandhunter if it is too close. "Cult wackos, get horny?" To avoid this, the hunter of the ^ will have to jump (if the teeth are upside down) or crouch (teeth down). Gesture: The Agonizer 9000 will make several gestures from threatening (cut throat) to exasperated (facepalm). The Sawblade launcher is considered part of The Agonizer 9000 and can be fired to give the boss. However, this attack only covers a small area in front of the nucleus and has low accuracy^ n, precision^ n.

Alongside a slight arc in the bullet's path, the Hail sports a meaty 150% ~ 175% critical hit damage on top of the ability to heal by dealing damage with the weapon. Throughout Pandora, unique pieces of equipment can be found. These items contain special effects beyond which is stated directly on the item card. Instead, there will be a line of "red flavor text", often a pop-culture reference, signifying the item has unique properties. The special effect items found across Pandora will vary in rarity. While these items are unique, the stats ... Hemovorous the Invincible is a respawnable Raid Boss encountered in the Director's Cut DLC for Borderlands 3.
