Android phone restore deleted pictures

Can you restore deleted pictures on android. How do i restore deleted pictures on my android phone. Is there a way to restore deleted pictures on android.

Jupiterimages / GoodShoot / Getty Images using the Facebook app for Android, you can not only publish status updates on the timeline but also check most of your aspects of your Facebook account. For example, you can delete specific photos from albums or eliminate entire albums simultaneously. Although you don't see a delete button when you open the photo in the app, you can delete it using the Menu button on the phone. Start the facebook app on your Android device. You can find the app icon on one of the screens or in the Apps menu. Type your email address in the "Email" field and password in the "Password" field and tap "Sign" to access your Facebook account. Tap the "Menu" icon - the one with three horizontal white lines, then tap "Photo" in the App section to navigate to the photo area of your Facebook account. Tap the "Album" tab to view all albums and then touch the album that contains the photo you want to delete. Touch the photo you want to delete to view it and then press or tap the "Menu" button on the Android phone to view the menu box. Tap "Delete Photo" and then tap "Delete" to confirm and delete the photo from the album. Tap "Cancel" if you want to interrupt and keep the photo. There are dozens "Probably hundreds - of Android phones on the market today. Some of them are exclusive for specific vectors, some of them are available throughout the world, but only some of them are at the top of their class. This week we wanted to know What Android phones thought were the best available, not just because a high-end functional or high-end hardware lists complete, but why do you think you offer a great overall experience. Here is a look at the top five Android phones, based on yours Nomination. At the beginning of the week, we asked you what Android phones that you think was the best. There are many sites willing to tell you what the phones are the best based on the chips inside, the camera, storage or version of Android pre-installed, but those things are not always added to an excellent user experience. We asked you what "past or present - thought phones were the best, and OL Three 300 nominations later, we returned to highlight the first five. The survey is closed and the votes are counted! To find out which of the five contenders below followed the first prize based on your vows, go to our Alveario Five Follow-Up Post to find out and discuss the winner! Looking for a decent Android phone? Of course, we know that the market will be completely different within a reading of Moresamsung Galaxy NoteSoften indicated as "Phablet" because of its inclusive and massive stylus super amoled display 5.3 ", the Samsung Galaxy note (AT & T. \$ 299 W / contract) is enormous, but many of you praised to mix the portability of a phone with some real estate goods from desperately necessary tablets. The 8MP and 2MP rear and front cameras and the 1.4 GHz double-core processor do not damage The issues, and while it is certainly not the right size for everyone, those of you who have a love, and others do not see the time that comes its release on other couriers. Furthermore, even if the note galaxy ships with Android 2.3 Gingerbread pre-installed, there are many ROMs available to take it to the Sandwich Ice Cream Android 4.0 or simply replace the touchwiz interface of Samsung entirely.HTC One X / STHE HTC One Series is the most recent activiv Or HTC to recreate himself, not the company really needs "most people who have used HTC devices love them and the HTC One X and one s are not exceptions to the rule. The only X (AT & T. \$ 199 W / Contract) is the new HTC tip phone, the 4.7 "sports screen, a NVIDIA Tegra 3 (internationally) or a Qualcomm Snapdragon dual-core processor (US / Canada), Android 4.0 Ice cream sandwich (with UI Sense HTC on top), built-in audio beats and a 8 mp rear camera with one 1.3 mp front camera. The HTC One S (T-Mobile, \$ 189 W / Contract) On the other hand, it is a 4.3 "slightly smaller screen, a 1.5 GHz double-core processor, a 8MP retro 8MP and VGA VGA Cameras, audio beats and sandwiches. Both devices are thin, the Powerhouse devices designed to report the Focus Android Lovers back to a group Select high-end HTC devices, instead of dozen-plus HTC released in the past. So far, it works. SAMSUNG GALAXY S / S iThe Samsung Galaxy S series of devices are some of the world's most popular smartphones, and even if Samsung and Apple are involved in a patented cause exactly as it is similar to the galaxy the iPhone (And vice versa), which has not stopped the galaxy S and the Galaxy S II to sell millions of units around the world. The Galaxy S was one of the first Android dual-core smartphones, and certainly one of the first to present the new (at the time) Samsung's super love display, offering bright and crispy colors even in intense light. It is still available for a song depending on the courier you take it from (in the United States, it was sold under the vibrating name (T-Mobile), Captivate (AT & T), fascinated (Verizon Wireless) and Epic (Sprint) In both 3G and 4G variants.) Party apart, the Samsung Galaxy S II is the current model of the company and has a super amoled 4.3 "display, a 1.2 GHz double-core processor, and While it was shipped with Android 2.3, most vectors slowly rolling upgrades to bring the device to Android 4.0. The price varies depending on the courier and the variant that you take, but one thing is certain: When it was launched, most people considered the Galaxy S II the best Android smartphone € à - "if not the best smartphone € à -" available on the market, which makes the fury on the next Samsung Galaxy S III that the much stronger.Droid series of Motorola Motolorathe Droid (Motorola Milestone, live International llo) was one of the first Android phones on the market actually carrying Android to the Messe - and surely the first Android phone available on Verizon wireless at the moment. It was a hard call to group the Droid series together, but it is worth noting that those of you who named the Droid line in large numbers specifically mentioned the cursor models, not the CandyBar models such as the Droid RAZR, Razr Maxx, Or the bionic (although all all have strong nominations), all available on Wireless Verizon in the United States. Motorola Droid 4 (VZW, \$ 199 W / Contract) is the current phone iteration, with a 4 "QHD display, a 1.2 GHz double-core processor, a 8 MP rear back and front cameras from 1 , 3 MP and in particular, a slide -out backlit keyboard that allows the phone to be used in both portrait and landscaping modes without sacrificing the real estate screen. The Droid line is still one of the few high-end Android devices to present one Physical keyboard, making it popular both for portability and with people who prefer physical keyboards to those on the screen. Android Gingerbread Sport Droid 4 and Rides Verizon Wireless' 4G Network.Samsung Galaxy Nexusthe Samsung Galaxy Nexus (VZW, Sprint, \$ 199 / W Contract, \$ 399 unlocked) is the official current "Google Phone", having launched with Android 4.0 Ice Cream Sandwich and currently acts as a peak Android device. Sport has a Super AMOLED 4.6 "screen, a 0 Curved outline screen, a 1.2 GHz double-core processor and a 5 MP and 1.3 MP back back and front cameras. It is a pure google experience, which means that the phone is (largely) free of bloatware and other apps pre-installed by vectors and producers, and lacks Samsung's ui level ui level in favor of a clean version Sandwich ice cream. The phone also sports the Google NFC payment system, Google Wallet. The camera boasts a zero shutter LAG, and it was the first phone to throw with the sandwich Pre-installed, and it's still one of the few devices that you can get already. If you want the true and more pure Android experience, or you want an Android phone that is officially supported by Google, this is. This to. There is true, the first five Android phones, based on your nominations. Now it's time to vote for everything It was difficult this week to run the first five considerables that there are three Samsung devices in the race, but some of them have obtained more nominations than some of the other combined contenders, so we can't ignore the fact that many of you have a strong opinion on These specific models. One thing to say about the candidates we lost? Does your favorite phone does not have enough nominations to include? Remember, the first five are based on your most popular nominations from the call for the contenders thread from previous week. Share your thoughts in the comments below. The five hive is based on the reader's nominations. As with most Hive Five posts, if your favorite has been left out, it's not because we hate him "it's because he has not received the requested nominations in the call for the post of the contender to make the first Five. We understand that it is a bit of popularity competition, but if you have a favorite, do we want to hear it. Have a suggestion for hive five? Send us an email to Tips+hivefive@lifehacker.com! IFOTO of Pittaya Sroilong. Source : Andrew Myrick / Android Central When it comes to our Android devices, we tend to cross and organize everything, including to delete duplicate contacts from your list. Even if this looks like a task, there are some of the best Android apps we can use for Helping to clean up our list of contacts. Every time we spend from one of the best Android phones last year to the latest version, duplicate contacts may appear and is only frustrating for everyone. Fortunately, the Thu RNI to have to pass and find every single duplicate manually went, as there are apps that make the hard work for us. How to delete a contact from your Android phone Open the Google Contacts app on your phone. Locate the contact you want to delete and tap. Source: Android Central touches on the three points in the upper right corner. Select Delete. Confirm that you want to delete the contact. How to find and join duplicate Open the Google Contacts app on your phone. Touch the Hamburger menu button in the upper left corner. Source: Android Central touches the suggestions button. From this menu, select Merge Duplicates Origin: Android Central After choosing the Merge Duplicates option, you will provide you with two other options from the Contact app. The first will offer to accept a single duplicate suggestion by tapping union. If you want to combine all possible duplicate contact tips, touch the Merge All button. You might think that Google wants to worry about a "whole or nothing" approach, but the contact app has another trick. If you want to choose and choose which contacts to eliminate, here's what you need to do. Open the Google Contacts app on your phone. Touch the three-point button in the upper right corner. Source: Android Central touches more in the upper right corner. Touch the Select button. Go through your suggestions and choose the contacts you want to combine. When finished, tap the three-point button and then select Merge. Source: Android Central Delete duplicate contacts With an app there is a plethora of solid contact replacement applications on the game store with different special features. An example is the Fixer and the duplicate duplicate aptly removal device named that not only synchronize your contacts, but you get rid of duplicates even faster. Open the Duplicate Contacts Fixer and Remover App app on the phone. Select the account you want to remove duplicate contacts. Touch the Find Duplicate button inside the app. Source: Android Central After the scan has been performed, the app will show all duplicate and similar contacts in your list. Tap the Delete Duplicate button and the app remove That were found. It's a great feeling going through your list of contacts and know that there are no more duplicates are wasting your time. Among the third-party apps available in the Play Store and on Google's contacts, there is a way to get rid of those duplicates quickly and easily, easily. Your list of your contacts is clean and organized over the years, your contact list can become a confused casino, especially if you have worked by devices. However, it will be much easier to call the right number, after duplicates have been united or deleted. Get an Android Android experience with the best camera Despite the duration of the Battery Subpar, Pixel 5 offers users all that they would need for a great Android experience. The combination of Android stock with a large camera makes a phone that you are enthusiastic to use every day. We could earn a commission for purchases using our links. Find out more. More.
