Management Arrangements

Accident and Incident Reporting Procedure

We accept our duty under the current edition of the Reporting of Injuries, Diseases and Occurrences Regulations (RIDDOR) to report certain injuries and incidents to the enforcement authority. The purpose of this procedure is to ensure that this duty is fulfilled and that accidents are investigated.

INCIDENT RECORDING

Any person injured during the course of their work should record the injury.

If you are injured in our offices when travelling between sites, the injury should be recorded in our Accident Book, which is kept in the Office. The completed page should then be removed and given to the Contracts Manager, who is responsible for ensuring that completed reports are kept secure. The injured person may take a copy of the page from the Accident Book if they wish.

If you are injured while working on site, ensure that it is recorded in the Accident Book held by the Client or Principal Contractor. You should ensure that it is recorded in our Accident Book, as above.

Where we are the Principal Contractor the site manager is responsible for ensuring that all accidents are recorded in the Accident Book.

ACCIDENT INVESTIGATION

The Managing Director is responsible for investigating all accidents. Incidents will be investigated by completing a copy of the Incident Report Form and measures necessary to prevent recurrence are identified. This task may be delegated to members of management.

REPORTS TO THE ENFORCEMENT AUTHORITY

The Site Manager is responsible for reporting to the Incident Contact Centre (ICC) any reportable dangerous occurrence covered by RIDDOR. If he is not sure whether an incident is reportable, he will contact the Director for advice.

It is our policy that communication regarding any accident is expressly forbidden. Any requirements of the Health and Safety Commission and other relevant parties must be addressed to the Policy and Procedure Manager. He will make our official response. This statement relates to both reportable accidents/incidents. When an accident or dangerous occurrence takes place it falls into one of the following categories:

- accident to employee
- ensure details have been entered in the accident book
- where an employee is incapacitated from work for more than three consecutive days (excluding the day of the accident but including any days which would not have been working days) because of any injury, complete internal report form and send direct to the safety officer
- If the injured employee is admitted to hospital and is an in-patient for more than twenty-four hours, the accident becomes specified as major injury and must be reported to the enforcement authority.

Business plan template docx download. Does microsoft word have a business plan template. Free business plan template docx. Template for business plan example. How to write a business plan template pdf. Score-deluxe-startup-business-plan-template 1.docx.

Be sure to keep the time and resources in mind when planning. Step 2: Colouring construction projects are not a single-man job. The timeline and the result depend on the property created by the meticulous recording for each step involved. 7. Standard Construction Phase Action Plan templateHSE.GOV.UKDETAILSFEILEFORMATSIZE: 194 KBDOWNLOADDEL CONSTRUCTION PHASE The sample template lists the key parts to assemble a successful action plan.
