It is an action-adventure video game published by Rockstar Games. I play the protagonist CJ who has to do missions like finding someone to talk to, looking for a job and stealing a car. Grand Theft Auto, Les Games Games Grand Theft Auto was first popular on PlayStation and then expanded to Xbox 360 and PC. The game developers have now revised the gameplay and graphics that will be available on your portable devices. To have such a caliber that the mobile program bore fruit. The high definition graphics are impressive and the game has obviously been specially remastered for this platform. This GTA version system is San Andre, which is a city based in Los Angeles, and there are three different cities to explore as you play. This takes place in the early 80's and your character CJ returns to help your Grove Street Gang dominate the area. You can customize your character with clothes, hairstyle, job. Like many GTA games, San Andreas offers many activities. The main story mission is estimated to require about 30 hours, so the price of this reasonable paid app is related to the purchase of the console version. Playing outside of the script is just as fun, so expect more hours of fun. During the fight and muscles, you can visit the gym and meet new moves. There is also a secondary mission and the usual options to recover firearms and money by stealing ambulances, fire engines and other vehicles. In fact, the vehicle selection is great, with your choice of 240Motorboats, vans and sports cars. It's all about checks, whether you know or not, the San Andreas car supplies franchise is a fun game. It is full of content, it is also fast and fun. You can stick to the mission format or choose the classic GTA Rampage, unleashing chaos in your region, which is one of the qualities for which the game has become famous. The greatest concern of all concerns on the console doors are the game orders. GTAD android players will not be disappointed even if the orders are not perfect. You can choose between three management methods, all ringtones. You can choose a touch layout that shows two analog style sticks in the corners. You can also select the buttons or use gestures. Driving vehicles can be difficult at the beginning, but you get used to it quickly. The shooting mechanism is not the most precise thing you need to consider, but it should not prevent you from completing the missions. You can change the controls at any time during reproduction, including the addition of inclination management elements. You can also connect the game controller to your Android device as this game supports external controller. Take back from where you interrupted after loading GTA, you can easily spend the first time to play controls, choose the characters' tattoos or know your position. You start the game with educational missions that give you time to understand how to manage CJ or Carl, collect objects and sweep to control your environment. GTA is easy to play in shorter gusts because you can save the game. Errors can be long, so it is useful that the game has control points that allow you to protect your progress. There are two rescue options. You can become a member of the Rockstar Social Club, connect and record your progress in the cloud. Alternatively, you can save your progress locally, which means resuming the data saved on your phone. The graphics and the soundtracks are really noteworthy because they make the whole game more exciting. The vocal cast is particularly noteworthy, with over 800 different voices, and includes celebrities such as Axl Rose, James James and Samuel L. Jackson. Alternative games in GTA San Andreas are a form of entertainment and will attract fans of the franchise. However, this is not the only part of the game or console. If you are not sure of what you are looking for, or if you are notThen there are alternatives with control devices that you can control. The big theft car is part of the action launch types, so other games you may like on the same line. If you've completed GTA San Andreas before, an incredibly fun alternative or sequel to Lego City is hidden away. There is a lot to explore as a secret police officer trying to divide the criminals. The range of vehicles offers your driving solution but with less theft car. There's more than the proper technical issues, but it's still very fun to play. Another action game that focuses on vehicles and crime is Beat Cop. The story absorbs you and references 80's. And dark humor really adds to the experience. Graphics and soundtrack aren't even clear like GTA, but it even has a dark underground atmosphere. It will be good if you are looking for adult danger and troubles. More or less the same, but if you want with a different theme and position, there are other GTA games for Android. Why not try Grand Theft Auto: Vice City to San Andreas? Complex mafia refers to architectural art and 1980s. It shows how attention to detail has completed the game. For those familiar with the Grand Theft Auto series, the action, nostalgia and entertainment in this console broadcast will be much appreciated. The graphics and the game have been transferred successfully. The controls obviously take some time to get used to, but they didn't hurt the game. The hours of fun you have in front of this engaging game make it good value for money. There's a lot to love from music and sounds to mission. Most recently, Grand Theft Auto: San Andreas was the fix and continued the game's progression. On the way back to the game after the update, you have to select from a manual protection window instead of clicking on the shoot. Therefore, the restore function should work normally. Generally.
