An enigma is a statement that has a secret meaning - your mission, if you decide to accept it, is to solve the puzzle and find that meaning. Let's start with a simple one: Answer. Brothers and sisters, I have no, but this man's father is my father's son. Who is that man? If the "Show Response" button does not display the answer, then please turn off all adblocker extensions in the internet browser or open this page in another browser - e.g. Firefox. What is greater than God, the more evil than the devil, the poor need it, the rich need it, who does, he doesn't need it. Who buys it, doesn't need it. Who uses it can neither see it nor hear it. What is it? What can travel the world by being in a corner? What must be broken before using it? What is it that has many keys but cannot open a single lock? What runs all around a courtyard, but never moves? What runs all around a courtyard, but never moves? What runs all around a courtyard, but never moves? What is water made, but if you put it in the water it will die? I'm tall when I'm young and low when I'm old. What am I? What does he have his hands but cannot applicately five tall when I'm young and I will be fine, but if you throw me in the water I die. What am I? What has head and tail, but no body? What does an eye have, but you can't see? What becomes more and more damp dries? Paul's eight feet tall, he's an assistant in a butcher shop, and he wears shoes size 9. How much weight? There was a greenhouse there was a white house. Inside the White House there was a Red House the Red House there was a Red House there was a Red House there w have me, you want to share me. If you share, you won't have me a drink and I'll die. A man pushes the car along the way when he arrives at a hotel. He shouts: "I'm bankrupt! How many of each species did Moses take with him on the ark? I'm heavy forward, but I'm not back. What am I? He married many women, but he was never married. Who is it? What is light as a feather, but even the strongest man in the world can't hold it for more than a minute? Which weighsmore, a kilo of feathers or a kil down? In "The Hobbit" by J. R. R. Tolkien, there are several puzzles that Gollum and Bilbo ask each other. Live breathless, as cold as death; Never thirst, never drink, All in mail not clinking. Without voice weeps, fades, teethless bite, mute without mouth. A box without hinges, key, or lid, yet golden treasure inside is hidden. What has roots as no one sees, is taller than trees. Come on, come on, and still never grows? Here are some hard puzzles that appeared in Batman's films - usually Riddler asking Bruce Wayne. If you look at the number on my face, you won't find thirteen places. Teach one out and scratch the head what was red is black instead. We eight go out not back to protect our king from an enemy's attack. There are three men in a boat with four cigarettes, but no matches. How can they smoke? What is always on the road but never comes. bleed Here who we are, that's what we do. We do it for kicks and we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills When boredom makes you lose your mind But above all we do it for chills when boredom makes you lose you can read the sign of the properties. blows on the bay hoist up my sails, I am going to look for, for the sake of my bands A village to loot in the house drink all their wine (Because, hardly seem like their mind!) When the job is over, I pull out the door collecting more than I'm negotiating for In Port once again, my co-workers and everyone takes note of my song and dance. We will leave the Harpooning bay anyone who can resist! A fairly long and thin metal tube My function looks surreal Along my body entering, I'm bringing a nice reel, threw me out of the waves. And leave me standing, I'll take you to caps that you crave if I'm not mad at squalls to find the perfect place, explore Shun's ghosts, avoid the snow It's better if you can monitor what's happening below, I'll try to get you with a hook. And lines that hold you tight Designed to draw a look of desire Be careful if you bite Me and I sit at the corner. Even though I'm hugging a tree nowthat in the end is not as bad as it seems to have grabbed everything I can without pause in my mile in the midst of the crimes that I hung a man And then the man hung me hangingwe met some other kind of mine In an open hiding place where no one could find except the dead and the sky gone sent with the society Clad in the cloaks of four or three Straights and I will not be So my destiny is thrown Sawn as under as you are fain In coffin slain 'neath ice with blood-stained ball and chain Gouged up to the last Entombed still alive To see again in the sun But the legs on the ground are shaved down Curtailing all the efforts to run In the body there is a dozen knives My crown is sure to split up and smell the spear of a thief flew from my ear Be grateful that this ends so well As we discuss, white and black I am next to my twin See sun rays fall through that heart I keep exposed the Superman sign If eventually our paths should meet Then the head or'er heels go Should safeguard fail, there is no retreat How do I bring the snow Long in fluent dresses Supposing my humble station draw curious globes And I'm trying to enlighten my patron The task I hired Provide with protection Unlike my corrupt peers Distorting your sound perception will not be long wind unless I am far Results could be quite beautiful or different day The fools, the refusal for after several days They only see the Snow imperfection has fallen to the ground Still my lawn is clear Lifeblood that flows all around Not wanders here Spring and Summer, almost drowns the irrigation lawn If the grass is green or brown I will make it strong When the days are hot like hell Shade the sun over Scorching does not quiet well Where they masturbate from my ear Then kiss me on the lips. You say I'm sexy and you keep me close, then you laugh that I miss my hips in shape. Up and down your silly game Your passion has already stirred, whether the mood is light or dark - Try to hold me still! I'm the end that I'm the end that I'm the one who hides. The bonfires make my life at the tip. Never had the task of making amends, slowly here I die. My enemy you'll never know his death is invaded by the sigh. I'm the acrobat at your command, give me a turn, or put me at the counter. I'm the sentinel, the doorman you need, give me a move, a way out of me. Hit me, hit me, nail me in your wake, without my fins, the weak knees fall. I live in one state and travel in another, Sunny side up or fumble in the other. Five-walled house Close my door and do four. I know exactly who you are, where you sleep, friends you care. A loyal soldier out on tour I take the leaves abroad. So blame gold on my chest, give me orders that cross the boundaries. I've clinged to these weapons, right, you send me as we renew. Shame from our heads to your toes, "Get them out!" we want to cry. And we were sureCheck your throat for a while! See how we choke? Smiling spirit spry and old, We stop all the fun (even if it only takes one.) We are just hoping that we could go fishing, (and we will show you the hot fish on the plate!) The soldiers march all in a row through the field, the part they play they know. Black soldiers, high soldiers Through the fruity plains crawl. Grinning wide, firm, your sure ego will confirm. Break the dead, leave the waves will not break, these brave soldiers. The treasure waits beyond the reach of gold within a socket, the remains of the dead are sewn to keep the whole living. The broken bones between the weeds scattered around, where the intact buds silently wait for the blades on the ground. Marked and tied, I never died old as old can be, Push me to moral ends are all for modesty. Often lost and all alone Find me without teeth, the holes I bear proudly wear security at my reach. I'm taller than the private, Commander of the Line, the uniform of my noble security goal over time. In progress and under nodes My medal was born proudly, in my grip a flag, sans mast All the nobles flew. Two children, who were all tangled up in their account of the days of the week, dwelt on their way to the school to straighten the issues. "When the day after tomorrow is yesterday," said Priscilla, "then today will be away from Sunday as that day was that it was today when the day before yesterday was tomorrow!" What day of the week did this prattle stink occur? A basket contains 5 apples. Do you know how to divide them between 5 children so that everyone has an apple and an apple stays in the basket? There are some trees in a garden. On one of them, a pear tree, there are pears (logicquite.) But after a strong blown wind, there were no pears on the ground. Why? A poor farmer went to the market to sell peas and lentils. However, since it had only a lot and did not want to mix peas and lentils, poured first into peas, bind the sack to the center, and then filled the top of the sack with lentils. On the market a rich inn happened with its sack. He wanted to buy peas, but he didn't want lentils. Pour the seed in any other place, but the bags are considered dirty. Trading bags are not allowed. The farmer can't cut a hole in the bag. How to transfer peas to the bag of the innkeeper, who wants to maintain, without soiling the products? The captain of a ship was telling this interesting story: "We traveled the far and wide sea. Once, two of my sailors were standing on the opposite sides of the ship. One lookedwest and east. And at the same time, they saw each other clearly." How can that be possible? A staircase hangs on the side of a ship anchored in a port. The lower staircase touches the water. The distance between the rungs rungs20 cm and the length of the scale is 180 cm. The tide is rising at a speed of 15 cm each hour. When will the water reach the seventh run from above? Three people enter a hotel. They pay \$30 to the director and go to their room. The manager discovers that the room rate is \$25 and gives the bell \$5 to return to guests. On the way to the room the reasons of the bellboy that \$5 would be difficult to divide between three people so as to bag \$2 and gives \$1 to each person. Now each person paid \$10 and got back \$1. So they paid \$9 each, for a total of \$27. The farmer has two more dollars, adding up to \$29. Where's the remaining dollar? 13 people entered a hotel with 12 rooms and each guest in room number 1. So, in the first room, there were two people. The farmer brought the third guest in room number 2, the fourth in number 3, ... and the 12th quest in room number 11. Then he returned to room number 1 and took the thirteenth quest in room number 12, still vacant. How can everyone have his room? Two girls were born to the same mother, the same day, at the same month and year, and yet they are not twins. How can that be? A girl who was just learning to drive came down in a one-way street in the wrong direction, but did not break the law. Why? Why can't a man living in the United States be buried in Canada? Is it legal for a man in California to marry the widow's sister? Why? A man builds a rectangular house in shape. All sides have south exposure. A big bear passes. What color is the bear? (like the bear riddle in Einstein's Enigmi section) If there are three apples and take 2, how many do you have? How much can a dog run in the woods? A great hockey fan claimed to be able to say the score before any game. How did you do that? You can start a fire if you have alcohol, gasoline, kerosene, paper, candle, cocaine, a complete matchbox and a
