6 of pentacles tarot card meaning. Pentacles tarot meaning. What does eight of wands reversed mean. 8 of pentacles meaning.

Eight is the number of mastery and accomplishment. So, it is no surprise that both of these words represent the Eight of Pentacles. One interesting thing about the Pentacles Suit is that as far as line up goes, the Seven of Pentacles card deals with reward and the number eight with hard work. In some sense, it would seem that these two should be flip-flopped. However, there was a hidden symbol found in the Seven of Pentacles that many do not pick up on—mountains in the distance. The meaning? Completion of one accomplishment is just the beginning of another dream. The Eight of Pentacles supports this conclusion and sends another message—mediocrity kills and dedication, even after the reward has been given is not only beneficial, it is required. Before we dive deeper into the upright- and reversed meaning of the Eight of Pentacles, we wrote down the most important words represented by this Minor Arcana card. Upright: Ambition, diligence, mastery, crafts and talents, perfectionism. Reversed: Lack of quality, workaholic, mediocrity, dead-end roads. Yes or No? Yes. Numerology: 8. Element: Earth. Planet: Mercury. Astrological Sign: Virgo. To fully understand the Eight of Pentacles tarot card meaning, we will first take a look at the illustration, its colors, and symbolism. If the man depicted in the Eight of Pentacles had a wife, she was probably a very lonely woman. Both the good

and bad side of ambition and perfectionism are presented in one image. It is one in a series of images depicting a young craftsman and perfectionist. The Eight of Pentacles is representative of a "work in progress" that is soon to be a completed masterpiece. There are many similarities between this card and the Three of Pentacles, which depicts an apprentice working on the structure of a cathedral. Here, though, we are dealing with a seasoned laborer who is obviously diligent and successful. The Eight of Pentacles indicates a period of dedication, hard work, focus, and ambition. Just like the laborer you are working hard to improve your skills and reach a new level of mastery. You are aware that this will require a lot of focus and dedication, but you are ready to put in the hours and to pay attention to the details. You know that you will not become a master in these skills in a day, but you are prepared for the journey to come and ready to persevere. Although money is often a necessary part of reaching our goals, it does not give our life meaning. If you've received this card in a finance or career meaning, it signifies the need for purpose. Is the work you are doing meaningful? If not, you need to find the path that leads to you enjoying what you do. This might involve going to trade school, making a career change, or starting your own business. The 'what' does not matter, as long as the dedication and effort are there. Anything you put your blood, sweat, in tears into will reap a hefty financial reward. Please do not rely on luck or get-rich-quick schemes, though. Make sure to invest your money wisely when it comes. Most importantly, have faith in yourself! Your self-confidence will partner with your skills and bring financial rewards. Is your or your partner's workload interfering with your relationship? When it comes to love, the Eight of Pentacles urges you to find a balance between your work and your romantic life. It is good to be ambitious and career-focused, but it is the personal relationships with family, friends, and others that we love that make life worth living. Make it a point to spend time with your spouse, even when duty calls. If you are single but looking, make sure that your commitment to your work or other life responsibilities isn't stopping you from finding (or keeping) a mate. The Eight of Pentacles often presents itself as a 'good job' in response to strides that one has made with physical recovery or emotional healing. If you have been putting effort into being stronger or growing spiritually, stay on course. If you are dealing with a health issue in the present moment, be careful not to view yourself as incapable or a victim of circumstance. Although you might not be able to control the outcome, you are in charge of your effort and your outlook. Just changing your attitude to one that is positive can make a world of difference.
