Student Name: _____ Score: _____

Addition Sentence

Using the figures, complete the addition sentence and find the sum.

Free Math Worksheets @ <http://www.mathworksheets4kids.com>

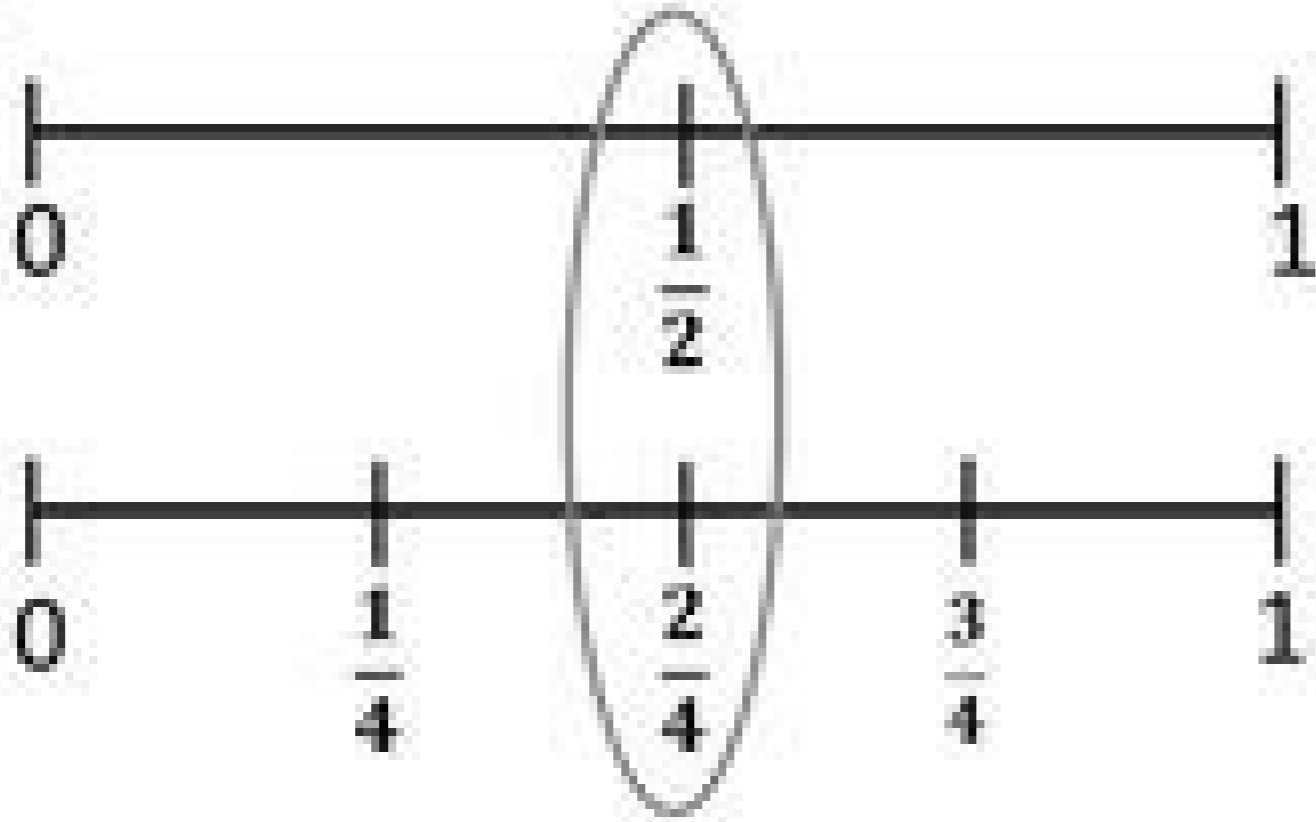

Ordering Fractions

1. $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$
2. $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$
3. $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$
4. $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$
5. $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$
6. $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$

Equivalent Fractions

Name _____

If both number lines are equal in length, you can find equivalent fractions. These are fractions that have the same value.

Look what happens to both the numerator and the denominator!

$$\frac{1}{2} = \frac{2}{4}$$

Circle all the equivalent fractions you can find. Write the number sentences below.

Name _____ Date _____

FRACTION NUMBER LINES 4 ANSWERS

Types of decimal fraction. Meaning of decimal fractions. Types of fraction with examples.

Here you will find a selection of free printable fraction information cards that will help your child learn their Fraction facts and their percent and decimal equivalences for tenths. We have a wide range of worksheets to meet your needs! Fractions Decimals Percents Worksheets How to Print or Save these sheets Need help with printing or saving? Simply divide the numerator by the denominator to give you the decimal form. On this webpage, you will find some helpful fraction information, and printable resource cards. This resource page cover tenths. Here you will find a selection of Fraction Information Cards designed to help your child how to learn Fractions. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Printable Fraction Strips Equivalent Fraction Strips Looking to convert between fractions, decimals and percentages? There are also some worksheets with some of the facts missing. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these sheets will help your child to learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. These sheets are aimed at 3rd graders. Cookies collect information about your preferences and your device and are used to make the site work as you expect it to, to understand how you interact with the site, and to show advertisements that are targeted to your interests. Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. The printable learning fractions page below contains more support, examples and practice converting fractions to decimals, and converting decimals to fractions. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. In the example below, the fraction shaded is 2/5 because 2 parts out of 5 are shaded. You can find out more and change our default settings with Cookie Settings. The second format is a simple worksheet which involves shading the correct amount of each shape which has been divided up and also placing the fraction correctly on a number line. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? 2/3=0.66666... This is called a repeating decimal it goes on forever repeating the same digits over and over. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. To convert a fraction to a decimal is a straightforward task if you have a calculator to hand. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Fraction Equivalent to Decimal Percent 1/2 2/2 1/3 2/3 3/3 1/4 2/4 3/4 4/4 1/5 2/5 3/5 4/5 5/5 1/6 2/6 3/6 4/6 5/6 6/6 1/8 2/8 3/8 4/8 5/8 6/8 7/8 8/8 1/10 2/10 3/10 4/10 5/10 6/10 7/10 8/10 9/10 10/10 1/2 1/3 2/3 1/4 1/2 3/4 1/5 2/5 3/5 4/5 5/5 1/6 1/3 1/2 2/3 5/6 1/8 1/4 3/8 1/2 5/8 3/4 7/8 1/10 1/5 3/10 2/5 1/2 3/5 7/10 4/5 9/10 1/5 1/10 0.333 0.666 1.0 0.25 0.5 0.75 1.0 0.2 0.4 0.6 0.8 1.0 0.166 0.333 0.5 0.666 0.833 1.0 0.125 0.25 0.375 0.5 0.625 0.75 0.875 1.0 0.1 0.2 0.3 0.4 0.5 0.6 0.7 0.8 0.9 1.0 50% 100% 33.3% 66.6% 100% 25% 50% 75% 100% 20% 40% 60% 80% 100% 16.6% 33.3% 50% 66.6% 83.3% 100% 12.5% 25% 37.5% 50% 62.5% 75% 87.5% 100% 10% 20% 30% 40% 50% 60% 70% 80% 90% 100% Where a digit is underlined, it means that the digit is repeated forever. This triangle shows how fractions, decimals and percents are related to each other. Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. In the example below, there is 4/3 shaded (or 1 1/3). Fractions are commonly used in everyday life as well as in mathematics. Each fraction card comes in 3 different formats: The first format is a color printable fraction information page showing the fraction in different representations. The parts have to be equal in size! Fractions can be smaller than one (one whole). Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. The printable learning fraction page below contains more support, examples and practice converting fractions to decimals. Below are some common conversions for fractions into decimals and percents. This page is broadly classified into four major sections, with three sections about converting into different forms and one section is based on multiple choice questions. Within each section, the sheets are carefully graded with the easiest sheets first. These printables are a great visual way to see how common fractions, decimals and percents are equivalent. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. ex: 1/8 = 0.125, 1/50 = 0.02, 1/32 = 0.03125 The third type of decimal is an irrational decimal. An irrational decimal is one that does not terminate or repeat. Using these fractions decimals percents information cards will help your child to understand different representation of a range of fractions (tenths); begin to learn how to place fractions correctly on a fraction line; know decimal and percent equivalence for each fraction; begin to learn about fraction equivalences. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. On each information card, you will find a complete sheet all about a given fraction, including examples of shapes with the given fraction shaded, and showing where the fraction sits on a number line. A fraction is a number which contains parts of a whole. Confident and flexible understanding of these ideas are key to everyday estimation and mental calculation in contexts as diverse as shopping and budgeting, diluting mixtures, understanding scales on maps, interpreting probabilities and odds, and converting among metric units. Not only is understanding these ideas essential to being numerate they are also foundational to more sophisticated mathematical ideas. If you understand fraction, decimals, ratios and percents you have the basis for understanding topics such as similarity, trigonometry, coordinate geometry, and fancy algebra Fractions, Decimals, Ratios and Percentages Pre-Test Fractions are useful in many contexts. The system of decimal numbers is an extension of the whole-number number system. The third format is a harder worksheet which involves writing down the correct decimal and percentage for each fraction as well as shading the correct amount of each undivided shape and placing the fraction on a number line. The printable worksheets in this page include practice skills in converting between fraction, decimal and percent. ex: pi, the square root of 2, any other non-perfect square roots To simplify this number you can: 1) Round it off to whatever place you choose. ex: 0.66666... 0.123123123... 0.104710471047... to simplify this number you have two options. 1) put a line over the repeating digits 2) round the decimal off Another type of decimal is a terminating decimal. A terminating decimal is a decimal that stops. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Decimal numbers are one way of representing fractions, ratios and percents. Converting Fractions to Percentages Convert Percent to Fraction Here you will find a selection of Fraction Strips designed to help your child understand their unit Fractions. Convert Fractions to Decimal Decimal to Fraction Calculator To convert a fraction to a percentage follows on simply from converting a fraction to a decimal. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Need to create your own long or short multiplication worksheets quickly and easily? We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that

are generally larger than 1000. Thumb through some of these worksheets for free! We encounter ideas related to fractions, decimals, ratios and percents on a daily basis. When you visit this site, it may store or retrieve information on your browser, mostly in the form of cookies. An understanding of percent relationships helps us to compare and represent increasing and decreasing proportions. Module 2: Fractions, Decimals, Ratios and Percentages Quiz Welcome to the Math Salamanders Fractions Decimals Percents Fractions Information cards. Fractions, decimals and percentages are related and can be used to express the same number, or proportion in different ways.
