For example, machinery maintenance, production, problem solving, sales, product development, among others. Value Offer: explain in this block what benefits your product and/or service offers to your customer segment. 6.2. Key Resources: Specify here each and every asset that is critical for your business to function. The aim is, therefore, to allow you to see on a single canvas all the aspects inherent to your company and how they relate to each other. 3. Soon after, dozens of questions arise about what precautions you should take when starting a business. Sebrae has developed 2 free courses to help you on this journey. You've probably wondered if your business idea is viable, haven't you? Business Model Canvas, better known as Canvas, is a strategic planning tool that allows you to develop and outline new or existing business models. 7. You can have more than one source of income, including. It must be filled with the most important activities, which cannot cease to exist without compromising the operation of the company. That is, it encompasses everything that provides interaction with the public. Sources of revenue: it is the block that presents how the client will pay for the value proposal delivered (e.g. sale, subscription, rent, license, etc.) etc.).
